Comfort SERIES

Enjoy Warm Comfort with Water or Steam Heating

Efficiency

Annual Fuel Utilization Efficiency or AFUE is like gas mileage. The higher the gas mileage or AFUE rating, the more efficient the automobile or system is. With energy costs on the rise, a Carrier Comfort™ Series boiler can help lower your utility costs.

- Carrier's Comfort™ Series boilers feature an AFUE of up to 81%, helping to reduce your annual heating costs.
- Oil-fired boilers offer an optional tankless hot water coil to help minimize costs associated with heating the water supply.

Things to Consider Before You Buy

Comfort

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of residential heating and cooling products. Your Carrier dealer can help you choose the best system for your home including Carrier-exclusive features that further enhance your indoor environment. Carrier offers a complete line of Comfort™ Series gas and oil-fired boilers that deliver consistent warmth with water or steam heating.

- Carrier's Comfort™ Series boilers are the ideal heat source for traditional radiant heat systems, available in water or steam varieties.
- Gas- or oil-fired boilers deliver comfort right when you need it.
- Integrated boiler control provides responsive heating and reliable operation.
- The Comfort™ Series boiler includes long-lasting cast-iron heat exchangers.
- Available propane conversion kits and electronic ignition design allow flexible heating sources.

Reliability

At Carrier, your comfort is our business. That's why we have one of the most extensive product research and development facilities in the world. Within each step of the development process, from the design phase to finished products, we test each and every product to exceed industry standard requirements. Our Comfort™ Series gas- and oil-fired boilers are easily accessible and that helps reduce the time it takes for routine service calls.

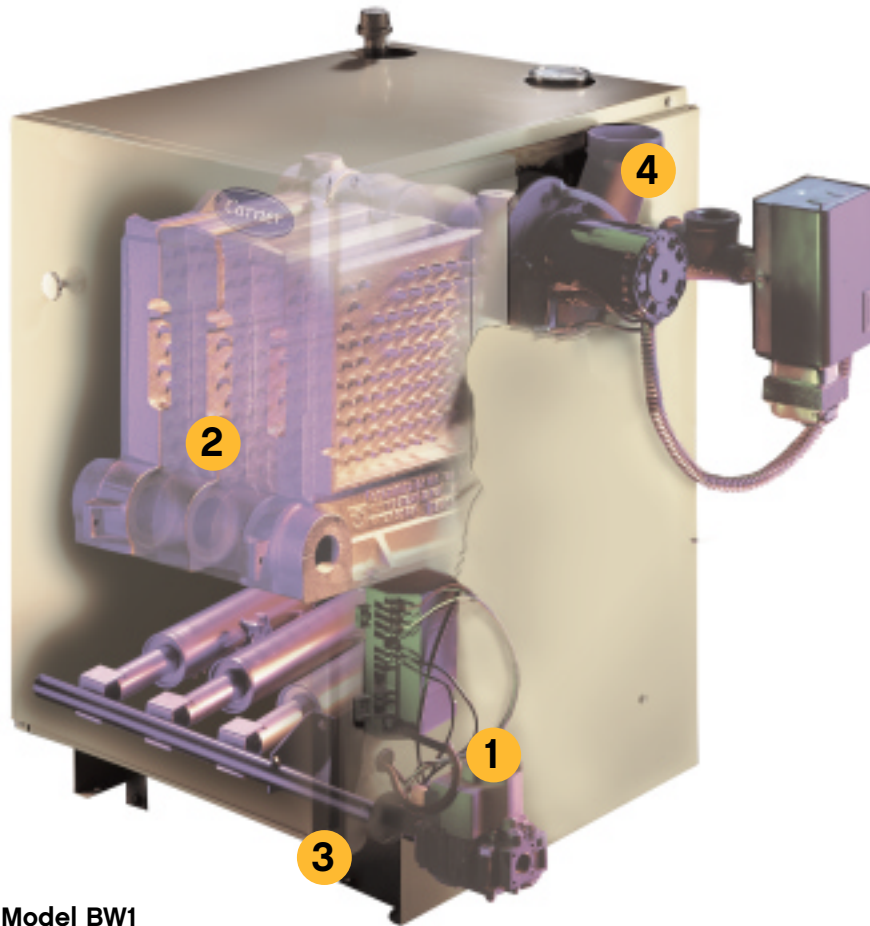

Models BS1 & BS2

Models BW1 & BW2

Technology

Model BW1

- 1 **Integrated boiler control** – provides responsive heating and reliable operation.
- 2 **Cast-iron heat exchanger** – transfers heat efficiently.
- 3 **Fuel** – economical natural gas-fired boilers can help save on utility costs. Carrier also offers oil-fired boilers.
- 4 **Pressure-relief valve** – protects the unit from overheating and helps eliminate excessive pressure build-up.

Warranty

Carrier backs all of its products in writing. The cast iron section assembly in water boilers is protected by a 20-year limited warranty and the section assembly in steam boilers is covered by a 12-year limited warranty. Each Comfort™ Series boiler is protected by a five-year limited warranty on the entire unit. Extended warranties are also available. Ask your Carrier dealer for details.

Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
