

Comfort™ 95 Gas Furnace

turn to the experts™ 

Comfort™ SERIES

As an ENERGY STAR® partner, Carrier Corporation has determined that the Comfort™ 95 gas furnace meets ENERGY STAR guidelines for energy efficiency.

Enjoy High Value Comfort and Efficiency with U.S. Tax Credits

Things to Consider Before You Buy

Economy

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of residential heating and cooling products. Your Carrier® dealer can help you choose the best system for your home, including a Comfort™ 95 gas furnace, our high-efficiency, high-value furnace with selected models eligible for federal tax credits.

- Between now and December 31, 2010, the U.S. Government is offering up to \$1,500 in tax credits for energy-saving upgrades to your home.
- Furnaces that achieve 95.0% or higher AFUE may qualify for a tax credit equal to 30% of the installed cost of the furnace (up to a \$1,500 maximum).
- Enjoy warm, winter comfort while saving money two ways: save now with tax credits and continue to save on monthly utility bills for years to come.
- As an ENERGY STAR® partner, Carrier Corporation has determined that the Comfort 95 gas furnace meets the ENERGY STAR guidelines for energy efficiency.

Comfort and Performance

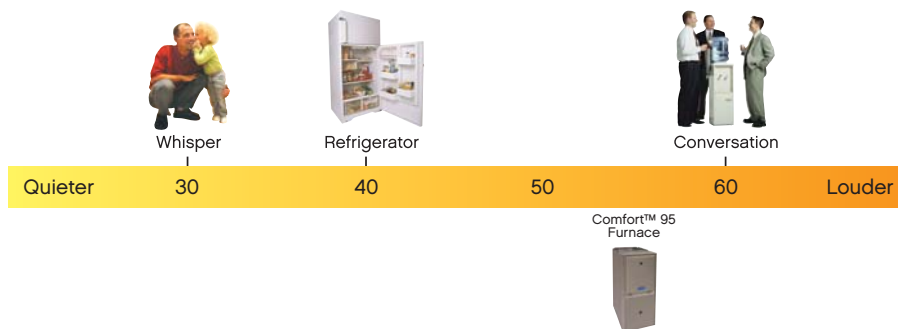

Many standard gas furnaces do a great job providing soothing relief from winter's chill. However, they can fall short on performance by delivering only about 80% of available heat to your home. That's because most standard furnaces rely on a single heat exchanger.

- The Carrier Comfort 95 includes our secondary heat exchanger to transfer an additional 11 - 15% of available heating energy into your home
- Made from durable stainless steel, our secondary heat exchanger resists corrosion for long-lasting performance

Reliability and Comfort Expertise

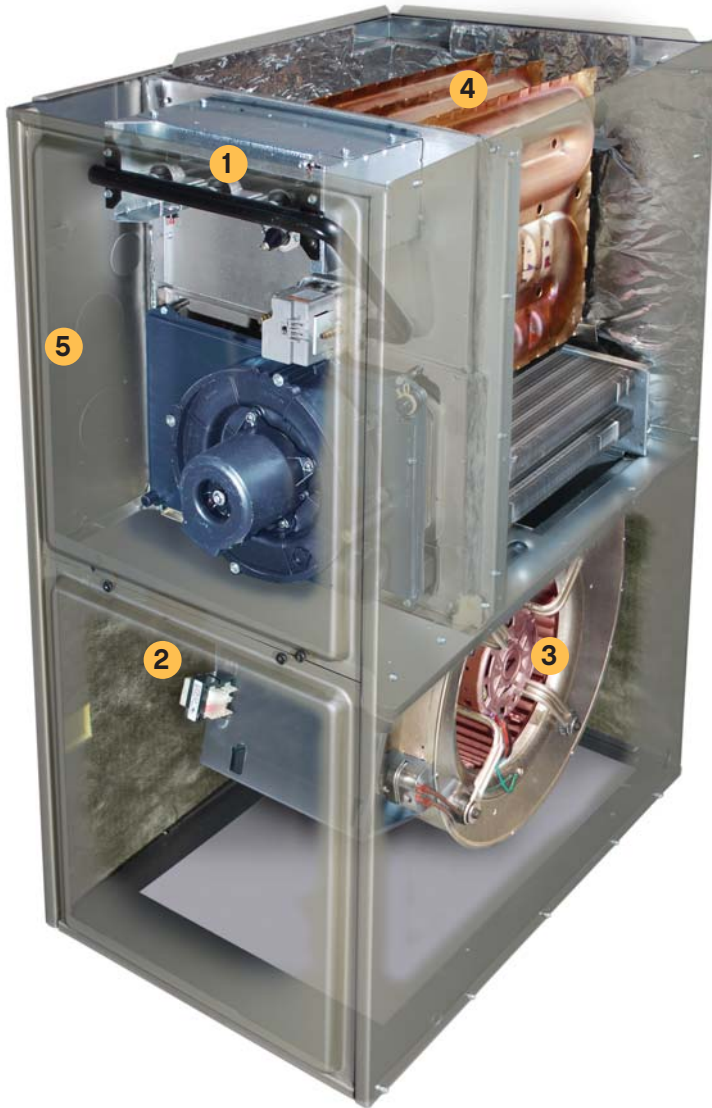

At Carrier, your comfort is our business. That's why we have one of the most extensive product research and development facilities in the world. Within every step of the development process, from design phase to finished products, we test every product to meet the toughest standards of all – yours. And, when a Carrier expert helps you make an educated decision about which system works best for your home, you can relax knowing your comfort is backed by the best name in the business – Carrier.

Comparative Sound Ratings (decibels)

Carrier manufactures gas furnaces that are among the quietest in the industry. We test our products in a sound laboratory specifically built to resemble a typical residence. Sound level recordings produced at steady state, low fire operation (the most common operating condition), measured 3 feet from furnace. Other sound levels, mentioned for comparison, as published at <http://www.nidcd.nih.gov/health/hearing/ruler.asp>.

Technology

- 1 Power Heat igniter** – is one of the most robust and durable ignition systems available. This system replaces a pilot light for enhanced reliability and reduced energy consumption.
- 2 Reliable control** – the Carrier electronic control monitors system operation for effective comfort and provides the installing technician time-saving diagnostics.
- 3 Multi-speed PSC blower** – works in concert with the induced draft assembly and gas valve for quiet, efficient comfort.
- 4 Two heat exchangers** – extract heat from the gas they burn and transfer it to warm the air. The primary heat exchanger extracts 80% of the heat while the secondary heat exchanger extracts an additional 11 - 15%, helping to ensure efficient, reliable comfort.
- 5 Cabinet design** – helps assure quieter operation with two doors and insulated cabinet.

Limited Warranty

To the original owner, the Carrier® Comfort™ 95 gas furnace is covered by a 10-year parts limited warranty and lifetime heat exchanger parts limited warranty upon timely registration of your new equipment.* Ask your Carrier dealer about optional warranties, which include labor.

* Warranty period is a five-year on parts and 20-year on heat exchangers if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty and a lifetime parts limited warranty on the heat exchangers. See warranty certificate at carrier.com for complete details.

Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier® systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
